PROFESSIONAL SUMMARY

A highly motivated B.Tech Computer Science Engineering student with expertise in full-stack development, backend engineering and database management. P
Completed multiple internships and certificate in Power BI & Data Analytics,demonstrating strong problem- solving skills through the hackathons and competitive coding. Adept at working in team-oriented envoirnments.

SKILLS

Programming language : C,C++, Python, JavaScript
Web Development:

- **Frontend Web Development**: Proficient in building responsive and interactive user interfaces using **HTML5, CSS3, JavaScript**, and **React.js**. Experienced with component-based architecture and state management using React Hooks.
- **UI/UX Design Principles**: Strong understanding of layout design, typography, and responsive frameworks to deliver clean and user-friendly interfaces.
- **Backend Fundamentals**: Basic experience with **Node.js** and **Express.js** for handling server-side logic, routing, and simple REST APIs.
- **Version Control & Collaboration**: Comfortable using **Git and GitHub** for source code management, version control, and team collaboration.
- **Project Deployment**: Familiar with deploying static websites and basic full-stack projects using platforms like **GitHub Pages**, **Netlify**, and **Render**.
- **Problem-Solving & Debugging**: Good analytical skills in debugging code and improving performance of web applications.
- **Continuous Learning**: Actively exploring modern JavaScript frameworks, API integrations, and full-stack development.

Other Skills: Data Analytics, Power BI , Competitive programming, Leadership , public speaking, Team collaboration

---

Achievements & certifications

Hackathons Champion- Led a team to victory by designing an AI-powered healthcare platform at COER Hackathon.

Microsoft Training Academy- completed a winter internship in Web Development .

Edit with WPS Office

Google Kickstart participant – Demonstrated problem-skills and algorithmic Skills.

Oasis internship certificate- enhanced my problem solving skills.

Power BI & Data Analytics Micro Course- Gained expertise in data visualization and business intelligence

Internships- MTA india,codesoft, oasis.

TECHNICAL PROJECTS

1. *personal portfolio website*

- HTML, CSS, JavaScript

  A fully responsive portfolio showcasing your skills, education, projects, and contact form.

2. To-Do List App

- **Tools**: React.js
- **Description**: A simple CRUD app to add, delete, and mark tasks as completed.
- **Features**:
  - LocalStorage support
  - Filters (All, Active, Completed)
  - Clean UI
  -

- **Plain Netflix Clone**

  Tech Stack: HTML, CSS, JavaScript

  Impact: Showcased UI/UX skills with responsive design and animations.

3. Weather App

- **Tools**: HTML, CSS, JavaScript, OpenWeatherMap API
- **Description**: A basic app where users can input a city and get real-time weather data.
- **Bonus**: Add light/dark mode toggle and temperature conversion (C/F).

4. Responsive Landing Page

- **Tools**: HTML, CSS (Flexbox/Grid), JavaScript
- **Description**: A homepage for a fictional product/service with a call-to-action, nav bar, and features section.

EDUCATION

Edit with WPS Office

- **Bachelor of Technology (B.Tech), Computer Science Engineering**
  College of Engineering Roorkee (COER) — 2022 - 2026 (Currently in 6th Semester)
- **Intermediate (Class 12th)**
- **India Today Convent Academy School -2021**
- **High School (Class 10th)**
  India Today Convent Academy School — 2019

INTEREST

- Frontend Web Development
- User Interface (UI) Design
- Building Responsive Websites
- Exploring JavaScript Frameworks
- API Integration and Real-time Web Apps
- Full Stack Web Development (MERN Basics)
- Version Control with Git & GitHub
- Participating in Hackathons & Coding Challenges
- Learning through various platform

Data analytics and business development-

Certified in Power BI, skilled in data visualization.
Actively participates in coding challenges and hackathons.
